Yummy Ramen! There are plenty of modifiable items. You can build your own Ramen. You can pick from the following broths and order vegan noodles.:

Veggie Shoyu

Veggie Shio

Veggie Tomato

Vegan, oil free toppings: Shiitake Inari - sweet tofu skin Takana - pickled mustard greens Menma - marinated bamboo Beni Shoga - pickled ginger Nori - roasted seaweed Fresh pressed garlic Fresh chiles Pickled Jalapenos Carrots Broccoli

Or you can order the Veggie Ramen without the mayu oil. The above toppings are also available for purchase to add to any bowls.

The Shio broth is their primary gluten free broth but they did say the Shoyu could be done that way as well. Please ask your server. They do not offer gluten free noodles but you can get rice instead of noodles.

Other oil free items: Edamame

*There on-line menu differs from in the actual restaurant. I was told if you tell the server your needs they will be able to guide you through choices as far as gluten free and vegan goes. I confirmed the broths and toppings above and edamame to be oil free with a contact at Michi.
